WHICH-SIDE

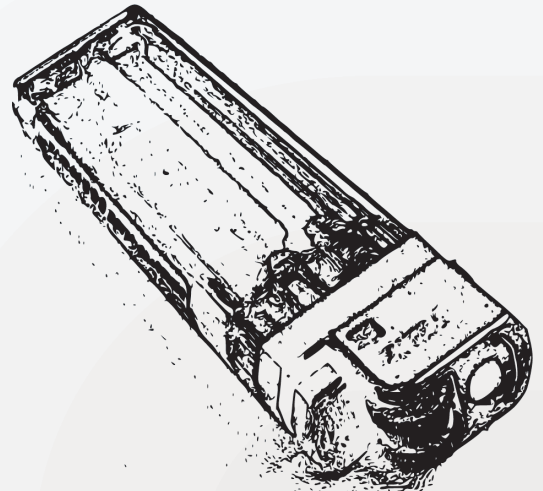

A VEGAN ANARCHIST PODCAST

“The Which Side Podcast is easily one of my favourite political podcasts. With a solid focus on earth/animal liberation, and a non-pretentious tone that makes learning about tough issues actually seem fun. As a former guest, I’m not only honoured to be listed among the amazing people they’ve had on the show, but it was easily one of my favourite interviews I’ve ever done: they let me ramble, swear, and tell stories I would never have been able to elsewhere. FUCK SHIT DAMN.”

“What I really enjoy about Which Side podcasts is the relaxed manner in which the interviews are conducted. It truly is a great way to share important information in a discussion format, rather than answering an awkward list of questions. Also, as an activist, I genuinely appreciate the level of understanding when talking to other activists.”
